

Permanent Magnetic Lifters (PML)

Easy To Use

- Maneuver Round, Flat and Angled Steel Efficiently

Self Contained

- Compact Design Allows for Workstation Mobility

Labor and Time Saving

- One Man Operation
- Eliminate Blocking, Chains and Straps (Slings)

Effective Use of Floor Space

- Allows for Horizontal Stacking Without Spacers

Rare Earth Permanent Magnets

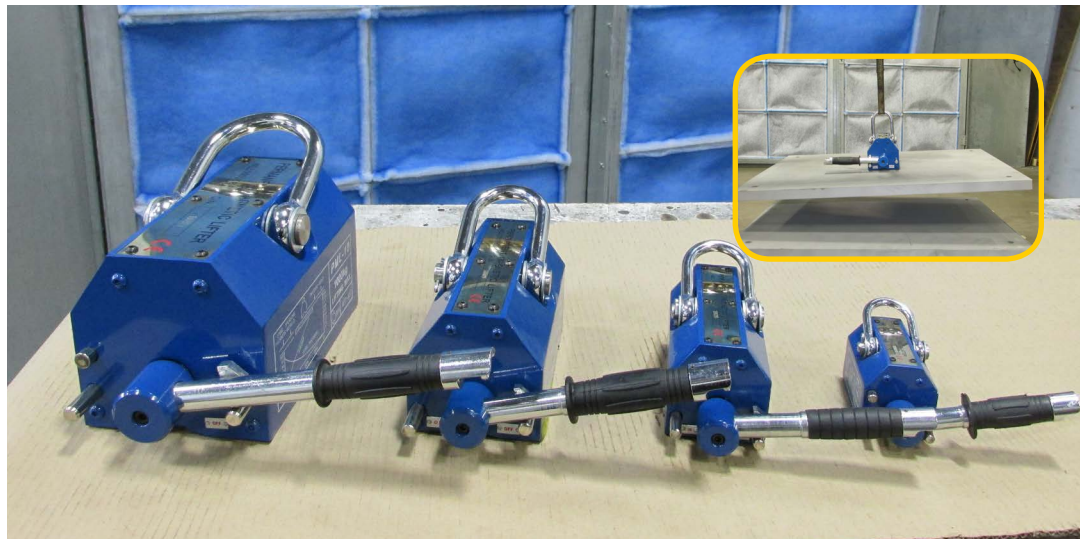

- Do Not Require Any Additional Power Supply
- Eliminate Hazard Associated with Electromagnetic Lifters
- Lifting capacities from 100kg to 5000kg

Exceptionally Safe and Reliable Operation

- 3:5 Safety Factor
- Self Locking Handle Prevents Accidental Deactivation
- Suspended Below the Hook or Utilized with Spreader Beam
